

Reframing Healthcare

A 10 to 15 years Outlook

Legacy Framework

1. Fee-for-service (FFS) reimbursement rewards volume over outcomes
2. Hospital-centric, brick-and-mortar delivery model
3. Limited integration of social and contextual determinants of health
4. High costs with inconsistent patient outcomes

Eliminating Barriers

Literal

- Provide Virtual, Digital, and Automated Care
- Reframe Point of Need is Point of Care
- Home-based Care Ecosystem

Conceptual

- Diversity, Equity, and Inclusion
- Identify and address non-clinical determinants of health
- Customized health addressing contextual concerns with whole health care focus system

Systematic

- Use of platforms powered by the “Network Effect”
- Create Partnerships, Collaborations and Integrations with other systems and industries
- Reframe Payments and policy reform beyond fee for service (FFS)

Whole Person Humanized Health

1. Value-based & Direct to Employer Plans
2. Adopt “Flywheel” model to fostering customer daily habit
3. Create platforms facilitating “Network Effect” empowering consumerism
4. Enable ease of access to care 24/7 model supporting home-based ecosystems and virtual care
5. Health system partnerships that expanding vertically (contextual, emotional, spiritual, and SDOH)
6. Focus on whole personal health and wellness

Where to find Care?

Home

- TV
- Mobile devices
- Refrigerator
- Home Devices (Echo, Google Nest, Apple Home)

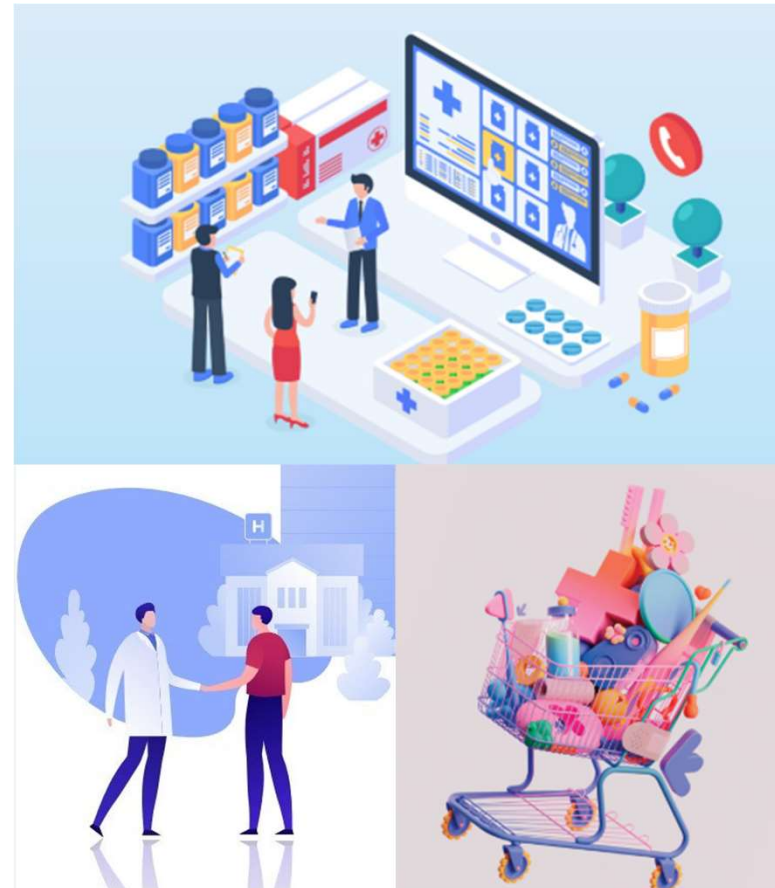

Community

- At the Gym
- Mobile care centers
- At the workplace

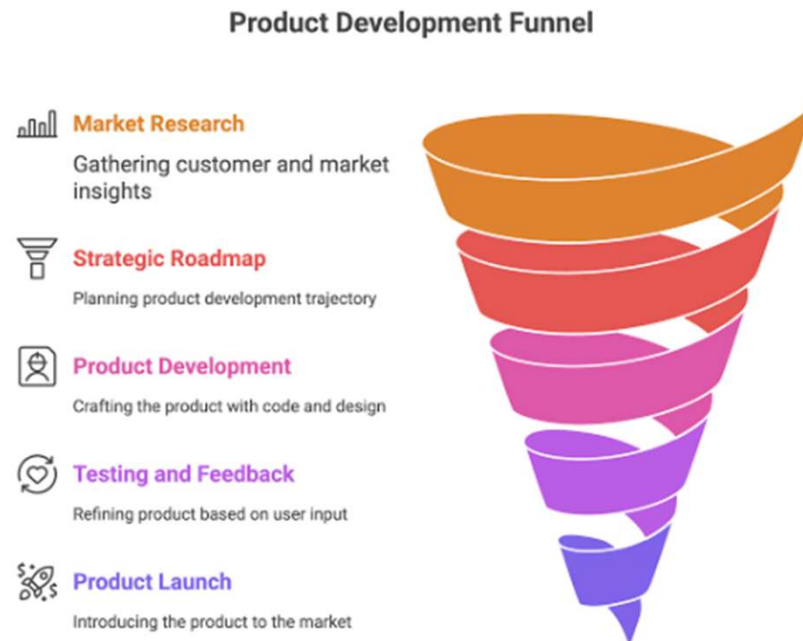

Healthcare Synergies

- Best Buy – Atrium Health
- Humana – CenterWell
- United Health Group – Optum and Change Health
- CVS – Aetna
- Uber – Uber Health
- Amazon – Amazon Pharmacy & Amazon Care
- Walgreens – VillageMD-Summit Health-CityMD, & CareCentrix
- Walmart – Healthcare Services Super Center
- Local Hospital Brands – Venture Capitalist and other hospital brand partnerships

Who Delivers Care?

- Healthcare disrupter that can provide support for all wellness needs with whole person health mindset.
- Systems that reframe the health industry from sick-care to healthcare.
- Systems that are focused on the customers needs and has a healthy feedback loop that will elevate healthcare outcomes and inequities

How to measure success?

1. Patient outcomes
2. Product Quality & Customer Satisfaction
3. Patient Experience
4. Costs
